

## **New Private Cloud Printing Features Eliminate the Hassle of Installing Drivers and Let Users Print From Anywhere and Any Device as Long as They Have an Internet Connection**

Print Manager Plus is a powerful yet simple way for any organization to Assess, Control and Reduce Printing Costs, which average from 1-3% of a company's total revenue.

SAN FRANCISCO and LONDON, Sept. 27, 2011 /PRNewswire/ -- Print Manager today announced the availability of Print Manager Plus® WebAdvantage Suite Option for organizations that need to control user printing and printing security, whether printing locally or remotely through the Internet.

This new version of the most simple and powerful internet-based Release Station on the market comes with Remote Printing features, which allows any organization to create its own Private Print Cloud.

Print Manager CEO, Mr. Bill Feeley states; "The new features in WebAdvantage Suite have been built for customers' existing Windows infrastructure, so ease of installation and setup is minimal. Creating a way for users to easily print directly into their organizations network remotely via the Internet is the future of cloud printing."

The WebAdvantage Suite is an Add-On Option to Print Manager Plus; it is composed of web based tools that allow organizations to implement users' printing flow and accounting without the hassle of adding new hardware, cash machines, kiosks or card swipe systems.

### Web Printing

WebAdvantage Suite can be placed anywhere there is a web or intranet connection. Users will be prompted for their existing login details; from there they can print via the web, view their print job's metrics, choose to print, delete, or even pay for their jobs from an existing balance with PayPal or Credit Card.

Private Print Cloud features include:

- > Enables Driverless printing of many common document types. Solution allows users to upload a document, select a printer and submit without needing to install any driver.
- > Supports Windows, Mac, Linux and virtually any other operating system running a Web Browser.
- > Seamless Active Directory integration.
- > Supports any printer type, make or model on your network.
- > Supports printing the following Document Types:

- \* PDF Files .pdf
- \* Images .jpg, .gif, .png, .tif, .bmp, .wpf, .emf
- \* Documents .doc, .docx, .txt, .rtf, .wps
- \* Spreadsheets .xls, .xlsx, .csv
- \* Presentations .ppt, .pptx

### About Print Manager

The worldwide leader in integrated Print Management solutions, and Headquartered in Menlo Park, California was established in 1996, its flagship product, Print Manager Plus, is used by tens of thousands of organizations

worldwide. Software solutions offered helps organizations, Audit, Monitor, Restrict and Control all printing, allowing for massive reductions in printing costs. At Print Manager, we believe in great technology. We believe great technology can and should delight people. And we believe in going the extra mile for our users and making the perfect product. We hate waste and the negative effects on our environment, which comes from a printer industry geared to sell you more paper, more ink and more printers. They are not incented to give you control over this waste, but we are. We believe that great technology can put IT in control of waste and let you get on with your job.
